1966 Consolidated Index

Editorials

	Issue—Page
A New Dawn	1—13
Non-Spinning Reserve	1—55
1944 - 1947 - 1956 - 1960 - 1966 (Important dates in the history of the Gas Turbine Division of the ASME)	2—17
Gas Turbine Marketplace. An open letter from the publisher	2—59
A Very Successful Conference (at Zurich)	3—15
Report on the Big 3	3—23
One + One = Certain Reliability	4—11
Close to Home	4—18
A "Call to Arms"	5—21
Nuclear Gas Turbine Comes To Life — Europe Five Years Ahead Of USA	6—13

Profiles

Meet Our New Executive Editor	1—17
R. A. Strub	1—23
Bruce O. Buckland	2—25
Dr. W. Rizk	3—29
Pierre-Philippe Chaffiotte	4—27
Alfredo Congiu	5—33
Urban Floor	6—29

Industry News & Special Reports

	Issue—Page
Ore Hauling Truck (world's largest with GE-GT)	1—16
1400-HP Version of T53 Engine	1—17
Upgraded GE Turbo-Generators (Model 5000)	1—18
Cooling and Power System (with Solar GT)	1—19
Lycoming's New Engine	1—20
Gas Turbine Specification 1966 (S-1 — S-17)	1—27
From 0 to 121 MW in Four Minutes	1—51
New Zealand's First Gas Turbine Generating Set	1—65
Burning Residual Fuel in GT	2—19
High Speed "Compound" Helicopter	2—23
Recuperating Gas Turbines (Development)	2—23
Public Service Re-Orders 121-MW Units (N.J.)	2—24
Offshore Oil Production (C-B Co.)	2—25
15-KW Lightweight Generators	2—30
Total Energy System Article References	2—35
England's Answer to Blackouts	2—45
Turbine Trains	2—66
Tomorrow's Hot Turbines	3—19
North Sea Gas Find	3—23
Report on the Big 3	3—23
First All-Gas Turbine Frigate (EXMOUTH)	3—24
Turbines To Also Power New British Destroyers	3—24
Caterpillar Agreement With Boeing	3—25
Manitoba Hydro Buys Two 14 MVA Gas Turbines	3—26
Zurich Conference Registration	3—31
Gas Strike Bonanza	3—44
Closed Cycle Plants	4—13
New Company in the Turbine Business (Nordberg)	4—15
Turbine Power vs Piston Engines (in cars)	4—19
Report by Prof. A. L. London	4—20
Answer To Future Blackouts	4—23
Federal Map Report (States With GT Power Plants)	4—24
60,000-LB Thrust Jet Engine (G.E. Development)	4—25
The Broad Implications of Total Energy	4—30
The Future For Total Energy In Holland	4—32
Low-Cost High-Performance Small Gas Turbines	4—40
Turbotrains vs. Electric Trains	4—43
Navy Hydrofoil Design	5—25
SST Tests	5—25
Underground Gas Storage	5—26
Waukesha Establishes Division	5—29
Titan Wins FAA Certification	5—30
Sulzer-Escher Wyss Team	5—31
Total Energy International Symposium	5—35
Multi-Service Turbine Generator Installation	5—36
200 MW Steam Injection Peaking Plant	5—40
Cold War in the Netherlands	6—16
Gasunie Pipeline	6—17
Associated Electrical Industries Ltd. Award	6—18
Bristol Siddeley Engines Ltd. Award	6—20
Fleet Modernization Program	6—23
Mobile Test Stand	6—23
Japanese Gas Turbine Industry Developments	6—24
Gas Cooled Nuclear Reactor	6—24
Brick Tile Works (with Ruston GT)	6—25
Pressurized Gas Producer	6—30
First All-Turbine Total Energy System in East	6—34
Special Report on Advanced Accessory Concepts	6—36
Turbine Boosted Locomotive	6—42
New Industrial Turbine Company (Orenda Ltd.)	6—57
Emulsified Fuel Tests	6—57

New Engines

	Issue—Page
No-Break Power System (6.5 KW.GT)	1—58
Giant Jet Engine (GE TF39)	2—23
Aircraft Starting Turbine (GTSS)	2—31
Superalloys Crowd Hot Section of Boeing's New 551 Industrial Gas Turbine	2—36
P&WA Supersonic Turbofan (JTF17A)	3—23
New Industrial Turbine (Ruston TA-1500)	3—62
Rolls-Royce RB.178 Turbofan	4—15
New Anglo-French Engine (M 45F)	5—25
Ford's Prototype 707 Truck Turbine	6—15
First Test Run of Viper 600	6—58
Mach 2.7 SST Tests (JTF17)	6—58

Design, Material & Fabrication Reports

H - T Superalloy Developed	1—18
Almar 18 Steels For Tooling	1—65
Surface Magnified 240,000 Times (Surface Analyzer)	1—65
Grinding Method for Gears (Red Ring)	1—67
Boron Filament Composites	2—23
Beryllium Blade Has Promising Future	2—23
Titanium Castings Breakthrough	2—25
Alloys For Long-Life Operation	3—42
Superalloy Production (Armco)	3—58
Partial Vacuum Production Welding	4—18
3% Cobalt Alloy	6—25
Investment Casting Trends	6—46
Forgeable Superalloy	6—57

Engine Components & Accessories

Marine Heat Exchanger Study	1—21
Heat Recovery Consultants Struthers Energy Systems, Inc.	1—25
Magnetic Pickup (Airpax)	1—64
Plug-In Spectrum Analyzer	1—64
High-Performance Seal (O ring)	1—64
Forecast Bearing Failure, Find Leaks	1—65
Snooper Spots Worn Bearings (NIC)	1—67
Waste Heat Boilers	2—24
Partner for Gas Turbine Powered Drives	2—50
Noise Suppression Through Cooling	3—50
Perma-Filter Solves Scrubbing	3—62
Sonic Engine Analyzer	4—16
Accessories (Report by W. S. Roberts)	4—21
High-Temperature Gas Bearings	4—34
High Performance Transmissions	4—38
Vibration Monitor and Detector	4—48
Recuperators vs Regenerators	5—22
Relationship Between Engine And Accessories	6—36
Electric Starters For Auxiliary Gas Turbines	6—37
Non-Mechanical Drive Controls	6—39
Pumps For Turbine Engines	6—40

Operating Experience

Veteran Hovercraft Engine	1—20
Report From Cincinnati Gas & Electric (100-MW)	2—24
Helicopters in Vietnam	2—30
4500 KVA Mine Gas Turbine Power Plant (in Japan)	3—43
Jet Engine Overhaul	3—49
Snap-8 Achieves Full System Operation	4—16
A Remarkable Record (P&WA JT3D)	4—16
Liquefied Gas Fuel (LNG)	4—17
Turbine Retrofit Aircraft (with PT6)	4—19
100,000 Hours Gas Turbine Operation (at El Paso Natural Gas Company)	4—23
Gnome-Engined Hover Service Nears 200,000th Passenger	5—28
Improved Testing Saves Lycoming $1 Million	5—28

Application

Water De-Salting Economy (with GT)	1—15
New Helicopter for 1966 (with Allison 250-C18 GT)	1—16
The Tantalizing Turbine Train	1—56
Gas Turbines for the Pipe Lines	1—59
Mobile Gas Turbo-Generator	2—22
Pace-Setter for Big Ships	2—42
Turbo-Tug Packs 1100 HP	2—49
50-Knot Turbo-Ferry (for Spanish hydrofoil)	3—48
100-MPH Turbo-Rail Car	3—51
New Turbo-Generator (B.S. 35/40 MW)	3—58
Turbine Powered Torpedo Boats	4—14
Canadian National Turbotrains	4—15
Jet-Powered Light Helicopter	4—15
Coin-T74 (PT6)	4—17
Grumman Goose (with PT6A-6 GT)	4—20
Natural Gas Peaking	4—21
World's First Pure Jet For Maritime Reconnaissance	4—25
Turbine-Powered ASW Ship To Be Launched This Year	5—27
World's First Gas Turbine Drill Rig	5—39
Gas Turbine Compressor Set	5—53
New Type Hydrofoil	6—23
World's First Turbine-Driven Rail Car Under Test Built By Budd Co.	6—25
$2-Million For Power Turbines	6—26
2.7-MW Turbo-Generator	6—26
International Market Research	6—27
Yugoslav Jet Order	6—27
Heavy Lift 'Copter Contract	6—27
Oil Well Servicing Rig	6—48
Turbine-Powered Air Conditioner	6—56
Desalination Thermocompressor	6—57
Compressor Installation Program (for gas pipelines)	6—58
